Cooking = 1	No comment = 22	Sensory = 1

Choir is held at lunchtime in school, gardening, craft and cooking club already occur but may be on a day they are attending another club

Any other comments?

- Alex enjoys going to club as it is a chance to socialise with his friends
- Thank you to all the staff that give up time so Josh can go to Rockets
- Abigail seems to enjoy the clubs, she leaves happy that's the best I can say
- The option for Thyo to attend more than one club is really brilliant as it helps to improve his social skills, thank you?
- I think all primary would enjoy and benefit from a sensory club
- Really pleased with the communication between staff and home, and staff do what they can to accommodate specific requirements of each child
- Zach thoroughly enjoys club! Thank you
- Amber enjoys clubs, many thanks to all members of staff for making them a success. Efforts appreciated
- Dylan really enjoys the club, the staff are fab and all the children seem to have a great time
- Well done
- Lauren really enjoys attending the after school clubs. It gives her extra time to socialise with her friends and learn a new skill
- Only that the taekwondo is missed. I think the clubs are great!
- Ryan always seems happy, a good sign that he has enjoyed the club. He especially likes art with Mrs Harbron where they make and do a wide range of things. Mother's day coasters were fab!
- Would like pool table at rockets, better choice of DVDs, magazines and comics to read
- Leo loves the after school clubs, please continue
- The taekwondo course that Courtney was taken to after school was very good for her as I live in Kidderminster, a big help that she went from school and then I picked her up and the fee was very reasonable
- Leah really enjoys clubs as she cannot access mainstream clubs as they are not appropriate.
- If any clubs were offered at a different venue (happy to collect from there) would consider letters for clubs all state priority given to children with respite. Still don't quite understand what this means i.e. respite offered by school, by county??
- I have a teenager who is able to tell me exactly what he doesn't want to do and is always tired (child who wanted to concentrate on school work only)
