Does your child have a health need which relates to their special educational needs?

Are you a young person with a health need which affects your special educational needs?

Would you like information in relation to the health processes which relate to a child or Young Person's SEND (Special Educational Need/ Disability) in an Educational setting.

Would you like information on the health care needs and /or health provision section of the Education, Health and Care Plan (EHC Plan)?

Would you like signposting to Health Services, charities or voluntary organisations who may be able to offer specialist support with health needs?

... then we may be able to help you
