INSPIRING WORCESTERSHIRE

ABOUT US...

WHO ARE WE?

The Inspiring Worcestershire Careers Hub is part of a national initiative led by the Careers and Enterprise Company to support the delivery of high-quality careers education within educational establishments across Worcestershire.

WHAT DO WE DO?

Our aim is to ensure that through our work with educational establishments across Worcestershire that every young person receives the information, advice and guidance they need to ensure they are fully prepared to enter the world of work.

WHY DO WE DO IT?

If young people across Worcestershire fail to receive high-quality careers guidance it is highly likely they will not undertake a career pathway that is right for them.

Failure to provide young people with high-quality careers guidance will also have a negative impact on the future workforce available to Worcestershire employers.

If Worcestershire's economy is to continue to grow then it is vital that they have a pipeline of young people who hold the right skills, qualifications and experience that employers are looking for. Providing this pipeline of young people to employers will ensure that they are able to replace employees quickly and efficiently but also ensures that young people do not feel the need to travel outside of Worcestershire to secure employment.

FURTHER EDUCATION

Young people are now required to remain in learning until they are 18 years old. Students with Education Health Support Plans (EHCP) are entitled to support in education until they are 25 years old, if they remain in education. The following information will show some options on how and where to stay engaged in education.

We have broken education down into smaller sections allowing you to dig a little deeper into the courses available.

These sections are:

- > Sixth Forms
- > Colleges
- > Independent Specialist Colleges
- > Independent Training Providers

Not all settings are applicable to all SEND needs, so ensure you follow the code highlighted at the start of the magazine to determine if it is an option for yourself.

APPLYING FOR YOUR NEXT STEPS

In the vast majority of cases students will be able to find a suitable course at an educational provider within their local area.

Very occasionally, if a student has very complex needs, they may need to consider an Independent Specialist Placement (ISP) which may be further away. The student must have an EHCP to access one of these placements and the Local Authority will only consider funding an ISP once all local options have been exhausted. Please note that the Local Authority cannot agree to place a pupil at an ISP if there is an equivalent course/provision available locally.

For those young people requesting residential specialist college placements the Local Authority will require evidence demonstrating that the proposal for a placement has been made as a result of appropriate assessment and guidance involving collaboration between relevant agencies, including adult social care and health. (caption taken directly from Worcestershire County Council's website)

FURTHER EDUCATION

APPLYING FOR YOUR NEXT STEPS CONTINUED

Further education, training providers and sixth form colleges offer a wide range of courses for young people, at all levels of achievement. Colleges offer supported courses for students with special needs at a range of levels. These can be accessed from age 16 (after Year 11) and remain available for students if they leave school sixth form after Years 12, 13 or 14.

Courses include vocational work-related learning and general courses which can include preparation for adulthood, such as life skills, work skills and independence skills. There are progression routes from one course level to another, provided the student has achieved the entry requirements for the next level course including the appropriate level of English and Maths.

The usual progression steps are:

Pre-Entry Level

Entry Level 1,2,3

Level 1 (GCSE 1-3)

Level 2 (GCSE 4 and above)

Level 3 ('A' level)

Courses at colleges and training providers help students gain qualifications and develop work skills, to help give them the best chance of gaining employment. There are courses with work experience options and other courses which are mainly work based learning such as supported internships, traineeships and apprenticeships.

Local colleges advertise their open days in local press and on their websites.

You can also visit the following link to see local events and open days on the Worcestershire Events calendar [Link](#).

The Education Health and Care plan can remain in place for full-time courses or training at college or with training providers. Colleges and training providers are required to make reasonable adjustments for learning and personal support, to enable students with support needs to access learning.

GOOD NEWS STORY!

At Rigby Hall Special School, we pride ourselves on the opportunities we are able to give our students, despite the pressures of the last 12 months due to the global pandemic. In September 2020 we proudly opened our Life Skills Village giving our students the ability to develop work skills in a range of vocations including mechanics, hair and beauty and construction here on site. The students have continued to develop their employability skills whilst exploring their strengths and ambitions for the future. Below is just one example of how the careers programme has benefitted our students.

My Name is Zach and I am in Post 16 at Rigby Hall. I decided to stay on in Post 16 so that I could learn to be a bit more independent and learn more functional skills. In my time at Rigby Hall I have improved my confidence and now I feel ready for my future. After I leave Post 16 I would like to go to college to study IT and computing. I would also like to learn how to live on my own. I think I have learnt lots about 'work' in sixth form, I enjoyed working in our community café and learnt how to communicate and be professional. I really enjoyed working in the new Life Skills Village, we have been setting up our own gym business, I also had the chance to use the construction pod to complete a commission project.

GOOD NEWS!

Steven Hawking

A theoretical physicist, astrophysicist, cosmologist, and eminent scientist

SEND:

Stephen Hawking was diagnosed with ALS (Amyotrophic lateral sclerosis) at age 21 and was only given 2 more years to live.

He actually lived until he was 76 years old.

He had been paralysed from head to toe for over thirty years and used a voice synthesiser to be able to communicate, and a wheelchair that he operated through slight movements of the head and eyes.

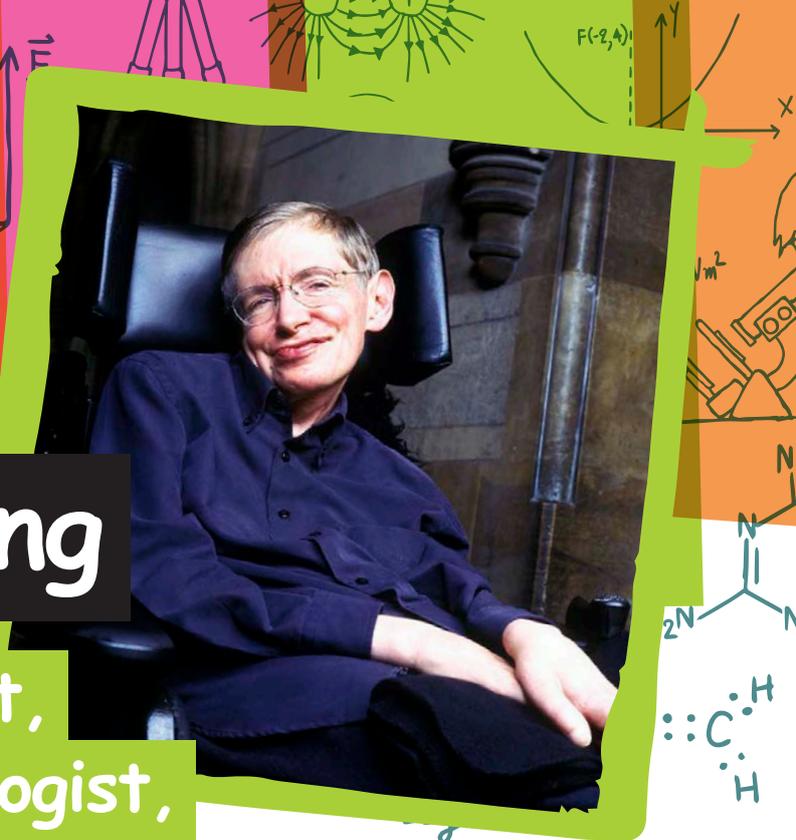

None of this prevented him from developing his activity as an **exemplary researcher and professor**. His work became so famous it gave him the platform to make his illness known to the world.

Becoming one of the most recognisable celebrities of our time, his story was taken to the cinema in the film "The Theory of Everything".

Why do you think that Stephen Hawking overcame his disability to achieve great things?

What technology did Stephen Hawking use which helped him in his work?

A photograph of Stevie Wonder performing on stage. He is wearing sunglasses and a dark, patterned shirt, singing into a microphone. The photo is framed with a yellow border and is set against a background of colorful vertical stripes. To the left of the photo, there are some hand-drawn musical notes on a staff.

Stevie Wonder

An American singer, songwriter, musician, and record producer.

SEND: Blind

He was born six weeks premature which, along with the oxygen-rich atmosphere in the hospital incubator, resulted in retinopathy of prematurity, a condition in which the growth of the eyes is aborted and causes the retinas to detach, causing him to become blind.

Stevie Wonder has sold over 100 million records worldwide, making him one of the best-selling music artists of all time.

He has won **22 Grammy Awards**. He was the first Motown artist and second African American musician to win an **Academy Award** for Best Original Song, for the 1984 film *The Woman in Red*.

How do you think Stevie Wonder became such a great musician even though he couldn't see?

What challenges do you think Stevie Wonder faced in order to be successful?

FUNDING YOUR SOCIAL CARE

DLA is the benefit to which children with disabilities may be entitled. For those age 16 years and over DLA stops and is replaced with PIP.

These guides explain these benefits further:

<https://www.gov.uk/disability-living-allowance-children/rates>

<https://www.gov.uk/dla-disability-living-allowance-benefit>

If someone has a child aged 16-18 and they believe they are eligible for support from the Young Adults Team, they should contact the Family Front Door on 01905 822666. If they are over 18 then they should contact the Access Centre on 01905 768053.

If they are assessed as being eligible for support from the YAT team they will receive a social work assessment which will enable them to access care and support which may include a direct payment. Direct payments are cash payments (rather than directly provided services), which are paid to a young person (age 18 and over), a parent or carer or to a nominated third party. These payments must be used to meet outcomes identified in a care plan or Education, Health and Care (EHC) Plan. By receiving direct payments, you are responsible for arranging, managing and paying for the services yourself.

Parents Feedback

It was a lifesaver, a bright spot in the week. My daughter always brightened up when Kevin came on

When the Myriad Centre had to close at the beginning of last year due to the National Lockdown we remained in contact with the clients and their families. It became evident that being isolated at home was affecting the social and emotional wellbeing of our clients. We therefore developed a project where we could take music into the clients own homes through zoom and they could interact with their peers. Kevin Bowman of Reaction Music delivered weekly sessions for all clients to attend that wanted to. In addition a weekly 1 to 1 session was made available to book for every client. The music sessions were funded by the centre and free of charge for the clients. These sessions were really successful with singalongs, various accompanying instruments and song writing and continued for one client once we were open until she was able to attend the centre again.

In April once lockdown restrictions were lifted to some extent, we were very excited to be able to bring music back into the centre with Kevin delivering music sessions once a week on a Monday.

GOOD NEWS STORIES!

Beth joined My STEPS (Support To Enhance Personal Skills) in August 2020 after completing her college course at Pengwern.

She originally started at just one day per week, getting used to the new routines, meeting new people, cooking her own lunch, working with animals, taking part in sports activities and travelling on the My STEPS bus. She settled so well that she has gradually increased the days to now being a full time member of My STEPS, attending all four days. Two of these she attends independently of her support workers.

Beth has had the opportunity to develop her independent living skills. She has chosen different dishes to make, sometimes cooking lunch for others or taking it home. Beth has shopped and paid for ingredients (pre Covid) read recipes using Widget symbols, used the washing machine, practiced her ironing skills and much more.

My STEPS has been very lucky to have formed a great working relationship with Leapgate Activity Centre which gives people the chance to work on a farm. Beth has developed her physical stamina, balance and strength. She walks more confidently around the farm, can now push and manoeuvre loaded wheelbarrows and can carry heavier weights than she used to. Her confidence around the animals is improved, she will hand feed the donkeys and pony and has even helped to carry chickens and new born lambs. Beth has developed friendships with both attendees and staff at Leapgate, often choosing to work with them on practical farm skills, she will get on the bus in a morning and ask to see her friends there, she genuinely cannot wait to get there!

Beth has also been given the chance to participate in music and Zumba sessions, sports and arts and crafting activities. Every day at My STEPS is different, you choose what happens!

For more information on joining My STEPS please contact Sarah on sarah@mysteps.org.uk or 07934 902020.
