

Sycamore class Spring Newsletter

Hello!

This half term our topic is space and we will be reading a story called 'Back to Earth with a bump'. You can find a copy of this on Microsoft teams.

In Science we will be exploring light and dark and have already enjoyed using our torches!

In PE we are working on our gymnastic skills and will be rolling, jumping and balancing.

For RE we are learning about the good news in Christianity so please share any good news that you have at home – however small!

In Art we are looking at pictures by Van Gogh and painting our own masterpieces!!

In DT we will be making rockets. We will of course continue to work on our individual targets for Literacy and Numeracy.

In Music we are practising playing instruments fast and slow and loud and quiet, along with taking turns to play as part of a group.

In Maths we are focusing on shapes and patterns this term, we have been recognising a range of shapes and making patterns with objects.

In Humanities, which is Geography this term, we are looking at the weather and how it changes.

Our PE day is on a Tuesday and Forest School is on a Thursday. Please could the children come to school appropriately dressed on these days.

Please continue to stay in touch via email or call us at school. If you are at home, please let us know how you are getting on with online learning and if you need any help with anything don't hesitate to get in touch!

Hope fully we will get to see everyone back together soon.

Take care,

Sycamore Team ☺
