

## **Post 16 Newsletter for Autumn 2 2021**

Dear Parent, Carers & Students

In Post 16 at Rigby Hall we are continuing to get our students ready for life after school.

Our curriculum covers a wide range of skills from becoming part of the community to developing employability skills. From exploring health and well-being to learning valuable life skills. Along every step of the way, we encourage our students to become independent and considerate young people.

This half term we will be focusing on speaking skills in English and understanding money in maths.

For PSHE this half term we will be exploring the benefits of 'Living in a diverse society'. This will involve thinking about our own identities, exploring reasons others are treated unfairly and the importance of inclusion in our society.

We will be starting a unit around 'Making a product' and some students will be researching and undertaking an 'Art project'.

As well as the above, for our vocational modules, we will be exploring various cooking methods looking at health and safety, equipment used, avoiding risks and experiencing cooking through practical tasks.

In careers, Post 16 will be 'Action planning to improve performance', identifying their own strengths, skills and knowledge and planning areas for improvement, setting themselves goals and targets and matching career choices to interests and skills.

If you have any questions or require any additional support, please contact us on the usual email address ([post16@rigbyhall.worcs.sch.uk](mailto:post16@rigbyhall.worcs.sch.uk)) and we will be in touch.

We look forward to supporting the students as they continue on this exciting journey,

Yours sincerely

*The Post 16 Team*
